SERVICES OFFERED (all prices subject to change)	Price
Video and Stills The best value. Your cameraman will shoot your video and take pictures at the same time. Imagine showing your video at a gathering with your family and/or friends or having your photos to show. They will be able to enjoy your skydive along with you.	\$100.00
Video/DVD only Your cameraman will video your ground preparation, the actual freefall, and your landing. There will be pre and post interviews and your video will be personalized with your name and music. Time permitting, you will be able to view your video on the day of your jump and take it home with you to enjoy and show your friends!	\$80.00

Making your first skydive is very exciting. You will think about it over and over again. You can also relive that excitement over and over again by capturing it on film and/or a video. You can hire a professional freefall cameraman to photograph and video tape your skydive. As you and your instructor jump from the aircraft, so does your cameraman. This allows him to fly just inches away in freefall to get some great personal photos and video. When making your **Tandem** skydive appointment, please ask about our photography services.
